 - 2) Premix B in a separate tank and mix for 30 minutes at 400 rpm.
 - 3) Add B to A. Then Add C. Adjust pH to 4.8-5.2

FORMULATIONS

Vibraconditioner Mahogany (#RO-006-10-A)

SPECIFICATIONS

pH:	4.0-5.0
viscosity:	60,000 - 120,000 cPS (Brookfield LVT, T-E, 1.5rpm)
appearance:	semi-viscous, opaque, cream
color:	black brown
odor:	characteristic

FEATURES AT A GLANCE

#ColdProcess
#Conditioning
#Semi-Permanent
#Botanical
#NoBuildup

FEATURES AND BENEFITS

This semi-permanent color conditioner will give great color intensity and good wash fastness due to the **Vibracolors**. Not only does this conditioner impart color, but it also deep conditions the hair. **Floraesters K-20W Jojoba** has been proven to be a versatile ingredient in hair care: it boosts benefits of quaternary compounds, reduces wet comb force, improves hair dye color retention, and has remarkable substantivity. **Dermatein Power Powder IV – Lustre** also provides impressive substantivity, intense moisturizing & shine. **Hydresia SF2**, a truly natural & unique emulsifier made up of safflower oleosomes, improves hair body & dry combing. Its contribution to hair softness is due to the oleosomes that collapse and release their moisturizing oils and vitamin E. **Rainforest Patua Oil Refined** moisturizes the hair and promotes scalp health: in a clinical study, it reduced scalp scaling, improved scalp hydration & texture. It is also effective in reducing damage in hair cuticles. **SiBrid Diethicone DE-12** is a diethicone that imparts shine and helps to detangle the hair. **Gludain R Benz** provides additional conditioning and protective benefits while giving body & volume to the hair.
