

BIOCHEMICA® MARULA OIL VIRGIN

INCI Name: Sclerocarya Bierra Seed Oil

Product Code: MAO1

CAS #: 68956-68-3

EINECS: 273-313-5

Brand: Biochemica®

Sclerocarya bierra (marula) seeds yield an oil that has one of the highest levels of oleic (omega -9) fatty acids found in nature. Polyphenols (inflammation reduction) and tocopherols (anti-aging activity) are readily available, with Biochemica® Marula Oil Virgin's unique composition allowing for twice the amount of tocopherols as its better known African-sourced competitor in the personal care industry, argan oil. Because of its one of a kind composition, marula oil offers exceptional anti-inflammatory activity along with excellent moisture retention properties, making it ideal for use as a treatment oil, in facial serums, as a makeup primer, or as a multipurpose emollient for cosmetic formulations. With its satin-like matte skin feel and extremely quick absorption rate, this oil will be an exotic, safe and effective addition to your personal care formulations that lavishes the skin with extreme moisture while providing protection from environmental stressors.

Features & Benefits:

- Anti-inflammatory Agent
- Anti-oxidant
- Biodegradable
- Dermal Barrier Function Restoration
- Dermal Moisture Content Balancing
- Emollient
- Emulsion Stabilizing Agent
- Feel Modification/Enhancement
- Gloss/Shine Enhancement
- Hair Conditioning Agent
- Moisturizing Agent
- Natural Product
- Plant Derived / Vegetal Based
- Shine Enhancing Agent
- Skin Hydration Agent

Appearance	Light viscous oil
Color	Yellow-green
Odor	Natural
Free Fatty Acids (%)	8 maximum
Iodine Value (gl/100g)	70 - 80
Peroxide Value (meq/kg)	10 maximum
Insoluble In	Water
Soluble In	Cosmetic Esters Vegetable Oil
Packaging	Pail - 5kgs Pail - 25kgs

Applications:

- After Sun Skin Care
- Bath Additives
- Facial Skin Care
- Hair Conditioners
- Hand & Body Care
- Lip Care
- Liquid Handsoaps
