

BIOCHEMICA® MONOI BUTTER

INCI Name: Hydrogenated Vegetable Oil, Prunus Amygdalus Dulcis (Sweet Almond) Oil, Fragrance, Cocos Nucifera (Coconut) Oil, Gardenia Taitensis Flower Extract

Product Code: MON1

CAS #: 68334-28-1, 90320-37-9, - , 8001-31-8, -

EINECS: 269-820-6, 291-063-5, - , 232-282-8, -

Brand: Biochemica®

Biochemica® Monoi Butter is a soft, velvety butter containing the essence of tropical tiare flower, famous for its aromatherapeutic action. The tiare flower is well known in Polynesia for its exotic tropical essence and use in skin and hair care. That essence has been combined into an exclusive exotic butter that goes on smooth and retains the tiare essence on the skin. The melting point of this butter is nominally 42°C, making it ideal as a butter-like balm. When incorporated in emulsion-based creams or lotions, Biochemica® Monoi Butter will add moisturizing benefits as well as essential aroma aspects to the finished product.

Biochemica® Monoi Butter exhibits excellent spreadability on the skin, making it ideal as a massage butter or carrier for treatment products. It may be used in cosmetics and toiletries including balms, hair care and sun care preparations and soaps, where it adds moisturizing attributes.

Features & Benefits:

- Biodegradable
- Bodying Agent
- Emollient
- Feel Modification/Enhancement
- Fragrant
- Hair Conditioning Agent
- Moisturizing Agent
- Plant Derived / Vegetal Based

Appearance (25°C)	Soft off-white solid fat
Melting Point (°C)	40 - 50
Saponification Value (mg KOH/g)	175 - 200

Iodine Value (gl2/100g)	60 - 80
Acid Value (mg KOH/g)	2 maximum
Insoluble In	Water
Soluble In	Cosmetic Esters Vegetable Oil
Packaging	Carton - 25kgs

Applications:

- After Sun Skin Care
- Bar Soaps
- Facial Skin Care
- Foot Care
- Fragrances
- Hair Conditioners
- Hand & Body Care
- Massage Products
